

REMARKS

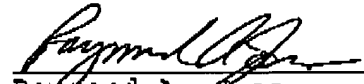

Claims 21-35 and 41-45 are pending in this application. As noted above, Applicant has corrected the Amendments to the Claims Section so as to provide the proper status identifier for Claim 35 as being "Previously Presented" and so as to provide the proper status identifier for Claim 36 as being "Canceled". Applicant re-affirms the cancellation of Claim 36 as indicated on page 4 of the Amendment And Response To Office Action, filed June 19, 2006. Applicant respectfully submits that each Claim listed in the Corrected Section for the Amendments to the Claims Section is provided with its proper status identifier.

Applicant further submits that, since Claim 36 is cancelled, only twenty claims are pending in this application and, therefore, Applicant does not owe the indicated \$25.00 fee for one extra claim.

Applicant incorporates by referenced herein, and hereby reasserts, the Remarks and arguments provided in the Amendment and Response to Office Action, filed June 19, 2006, regarding the patentability of Claims 21-35 and 41-45. Applicant respectfully submits that the present invention, as defined by Claims 21-35 and 41-45, is patentable over the prior art.

Entry of this Response To Notice Of Non-Compliant
Amendment (37 CFR 1.121) is respectfully requested.

Respectfully Submitted,
